

I'm not robot!

**Addition Facts Maze**

Help the child find the ice cream cone. Answer all the problems. Then draw the child's path by connecting boxes with sums of 6, 10, or 11. You can move up, down, left, or right on the maze between boxes.

6	11	11	11	6	6	6	6	6	6

# First Time in NYC

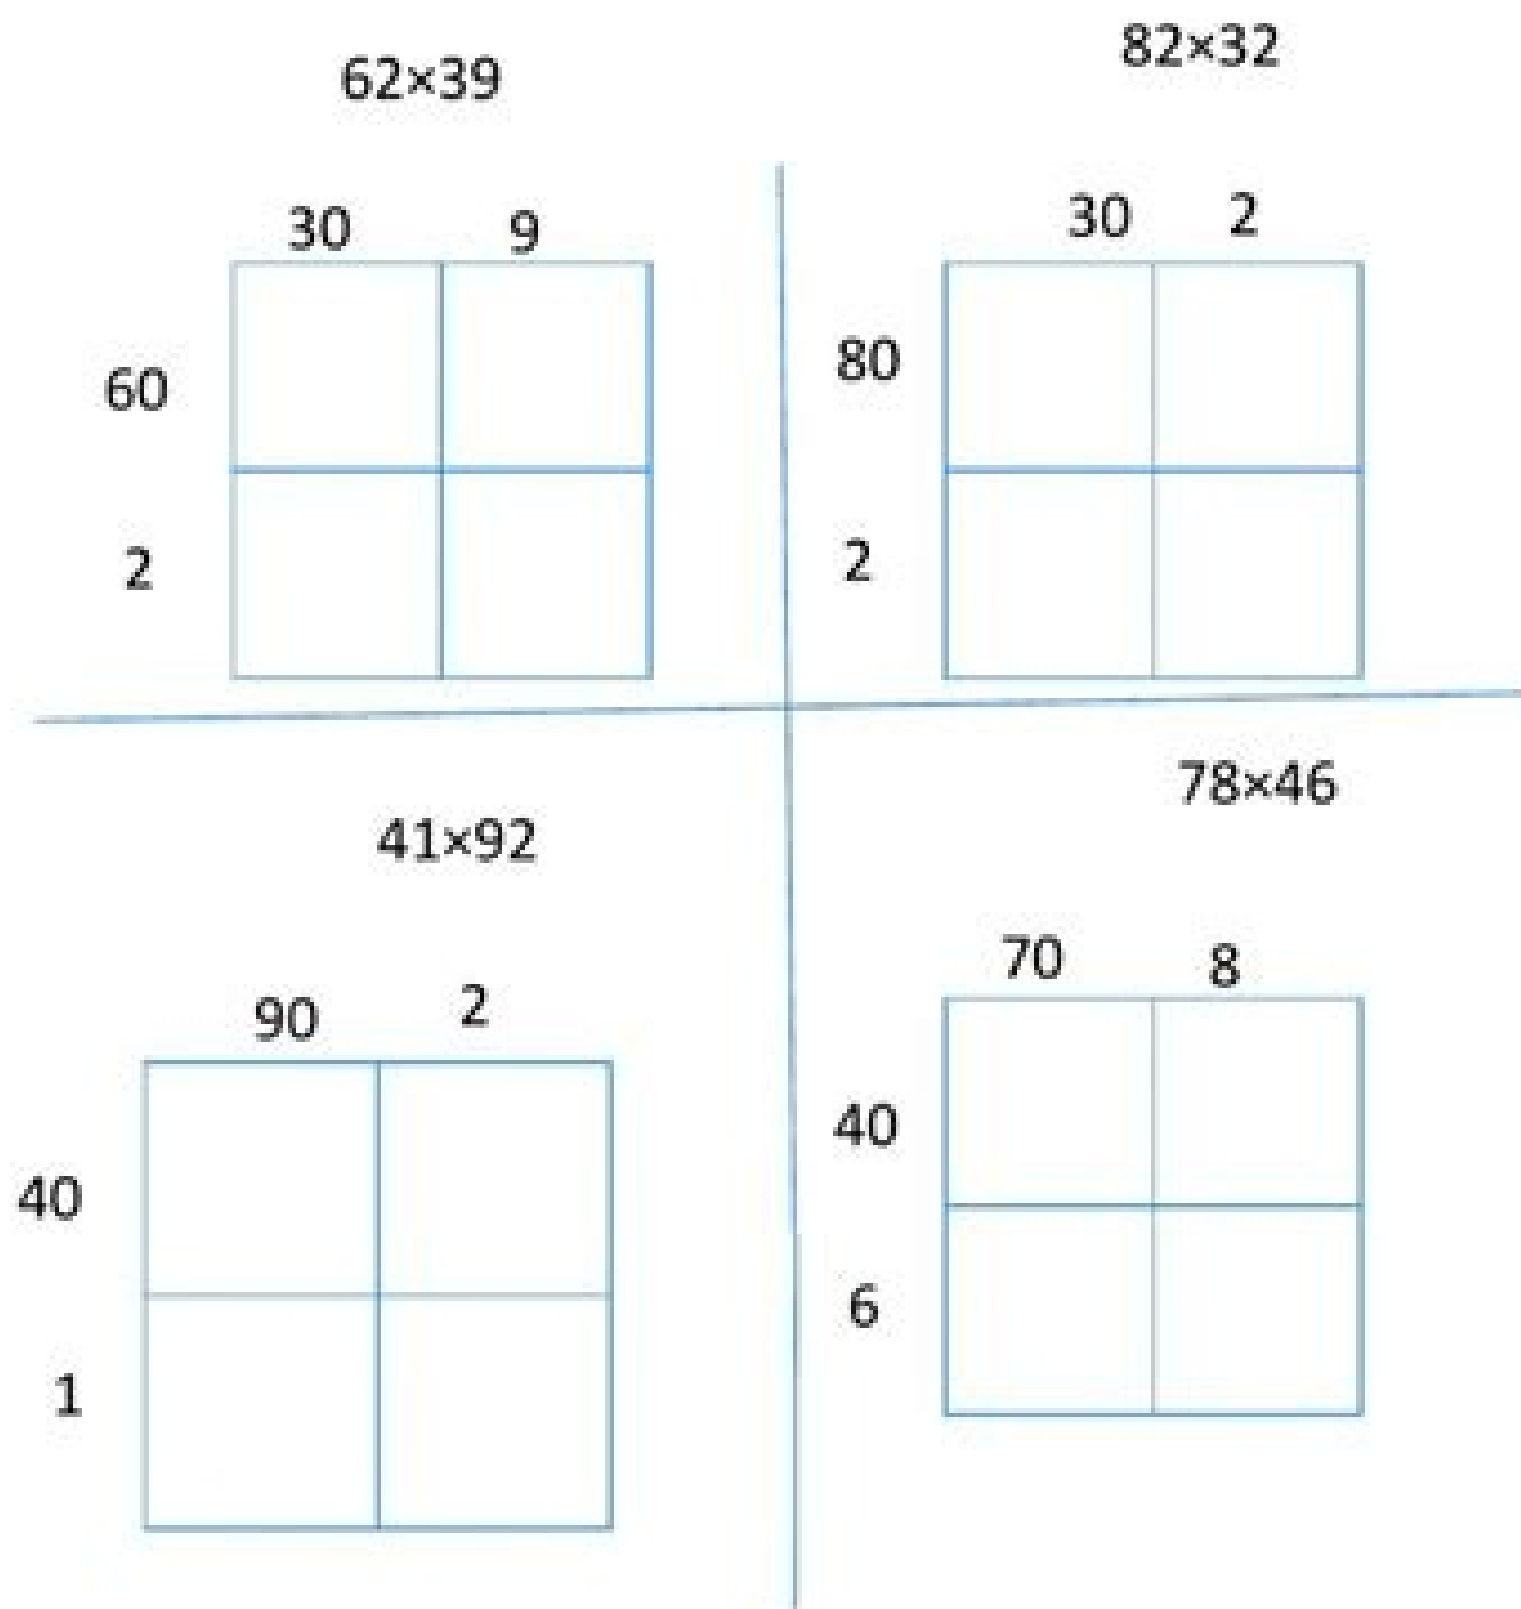

The Johnson family always traveled to the beach during the summers. This summer, they decided to travel to a big city called New York City. Mom told Dad that they would really need a map, but Dad said they would be able to find their way around without one. After walking around the busy streets for two hours, Dad finally declared that they were lost. Mom rolled her eyes and said, "I told you so!" She ran into one of the stores and came out with a city map. After looking at it for about two minutes, Mom decided she knew where to go.

1. Who are the main characters?
2. What is the characters' problem?
3. Describe how the characters solved their problem.

©Tobin, March 2015

Measurement Learning Check  
 Measurement Learning Check  
 This resource will help assess your students' mastery of concepts surrounding measurement and time. This worksheet will challenge your third graders with problems on area, perimeter, measurement, and elapsed time problems. I'm a primary school teacher, & ex-scientist, with 12 years experience. My passions are Maths and Science throughout the school. I spend a lot of time developing challenging, real-life, relevant resources to stretch my pupils. I have no interest in making any money from my resources as I enjoy the fact that other teachers might be using them in their schools. If you do use them please leave a wee comment rate them - all feedback is welcome as it helps me improve my own practice. Thanks  
 Last updated 15 April 2018  
 Maths problem solving booklets covering a wide range of mathematical problems designed to improve problem solving strategies as well as numeracy and mathematical ability. Designed to be printed as A5 booklets. Disclaimer: These are free because the problems are from a wide variety of sources, most of which I have forgotten. I am a maths problem magpie and collect maths problems wherever I find them. All I have done is bundled these ones up to make it convenient. If you find a problem that is yours and you don't want it used please comment and I'll remove it - cheers. Creative Commons "Sharealike"

 Welcome to the Math Salamanders' Math Problem Worksheets. Here you will find a range of different math problem sheets to help you learn to apply your math facts to solve a range of problems. There are a range of different word problems and fun math challenges for each grade. We also have a selection of word problems sorted by math area including fractions and ratio. This page contains links to other Math webpages where you will find a range of activities and resources. If you can't find what you are looking for, try searching the site using the Google search box at the top of each page. Want to apply your math fact knowledge? Looking for some fun math problems to solve? Want to use your knowledge to solve some 'real life' problems. Look no further! The pages you need are below! Here is our selection of different Math problem worksheets. Included in this page are a range of math problem pages from 1st grade to 5th grade. There are also fraction problems, ratio problems as well as addition, subtraction, multiplication and division problems. Many of the problem sheets use 'real life' data, so your child can learn some interesting facts while they are solving problems, and also hopefully see the point of all the math facts they have learnt at the same time. Each problem solving sheet comes with a separate answer sheet. Here you will find a range of math problems aimed at first grade level. Each problem sheet is based on an interesting theme such as parties or the seaside. Using these sheets will help your child to: add and subtract with numbers to 12; order numbers to 100; solve a range of math problems. All the math problem sheets in this section support Elementary math benchmarks. Here are a range of problems solving sheets for 2nd graders. Most of the sheets contain 'real-life' problems related to animal facts. Using these sheets will help your child to: apply their addition, subtraction, and multiplication skills; apply their knowledge of rounding and place value; solve a range of 'real life' problems. All the 2nd grade math problem worksheets in this section support Elementary math benchmarks. Here are a range of problems solving sheets for 3rd graders. Most of the sheets contain 'real-life' problems which involve real data. Using these sheets will help your child to: apply their addition, subtraction, and multiplication skills; develop their knowledge of fractions; apply their knowledge of rounding and place value; solve a range of 'real life' problems. All the 3rd grade sheets in this section support Elementary math benchmarks. Here is our set of 4th grade math problems to help your child with their problem solving skills. Each problem sheet comes complete with answers, and is available in both standard and metric units where applicable. Many of the problems are based around 'real-life' problems and data such as the world's heaviest animals. Using these sheets will help your child to: apply their addition, subtraction and problem solving skills; apply their knowledge of rounding and place value; solve a range of 'real life' problems; attempt more challenging longer problems. Using the problems in this section will help your child develop their problem solving and reasoning skills. 6th Grade Percent Word Problems Unit Rate Problems 6th Grade Here you will find a range of addition word problems to help your child apply their knowledge. The worksheets cover addition problems from 1st to 3rd grade. Here you will find a range of subtraction word problems to help your child apply their subtraction facts. The worksheets cover subtraction problems from 1st to 3rd grade. Here you will find a range of addition and subtraction word problems to help your child apply their knowledge. The worksheets cover subtraction problems from 1st to 3rd grade. Here you will find a range of multiplication word problems to help your child apply their multiplication facts. The worksheets cover multiplication problems from 2nd to 5th grade. Here you will find a range of division word problems to help your child apply their division facts. The worksheets cover division problems from 3rd to 5th grade. Here you will find a range of fraction word problems to help your child apply their fraction learning. The worksheets cover a range of fraction objectives, from adding and subtracting fractions to working out fractions of numbers. The sheets support fraction learning from 2nd grade to 5th grade. Fraction Riddles for kids (easier) Free Printable Fraction Riddles (harder) Percentage Word Problems 5th Grade 6th Grade Percent Word Problems Here you will find a range of ratio word problems to help your child understand what a ratio is and how ratios work. The sheets support ratio learning at a 5th grade level. Unit Rate Problems 6th Grade This is our finding all possibilities area where all the worksheets involve finding many different answers to the problem posed. The sheets here encourage systematic working and logical thinking. The problems are different in that, there is typically only one problem per sheet, but the problem may take quite a while to solve! Finding all Possibilities problems This is our logic problems area where all the worksheets involve using reasoning and logical thinking skills. The sheets here are designed to get children thinking logically and puzzling the problems out. There are a range of different logic problems from 1st through 5th grade! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills.
